Subject: Re: letter about CDO

This email responds to your comments regarding the lack of access to Prosecution Staff documents. Those that are available in pdf format have been posted on the website with other documents related to this matter.

The remaining documents are available for review at the Water Board office. To review the files, please contact Matt Thompson. The files are available for your review between 8 am and 5 pm on business days. Alternatively, the Water Board can have copies made for you at your expense, or you can have a copy service come in and make either paper or electronic copies. Our Public Records Act procedures are at http://www.waterboards.ca.gov/public_records/public_recordsact_guidelines.pdf. The CSD also has copies of some or all of the documents.

Please read the attached letter, as it would be ridiculous to pump a septic tank every other month for one persons use.

How low will we go? Check out Yahoo! Messenger's low PC-to-Phone call rates.

CC: Thompson, Matt
